

To who this may concern,

I am in full support of HB 5499! For the reasons as follows: I work all week and only get one day a week to hunt with my family and friends. If I were able to hunt Sunday's it would give me more time with my family making memories. The non hunting community can use lands 365 days a year. We as hunters only have short seasons and would like to hunt Sunday's with all weapons!

I also support SB 522! For the reasons as follows: Bear hunting will harvest enough bears to allow a healthy and thriving bear heard. It would cut back on the number of potentially dangerous man/bear encounters. It will also help other wildlife thrive like deer and turkeys. This being said I support both of these bills.
